

TESTIMONIAL ABOUT RAINDROP TREATMENT
FROM: SHARON HAMILTON of Norwalk, CA

My name is Sharon Hamilton and I am a 57 yr old with throat and lung cancer. After my radiation and chemotherapy treatment left me feeling ill and drained, Jamie offered to do a raindrop technique with the Young Living Essential Oils. What a big difference my body felt, especially after having radiation and chemotherapy. The raindrop treatment made my whole body come back alive.

I have had three raindrop treatment sessions and thankfully my cancer is not growing anymore at this time. I also have had back surgery and neck injuries and the raindrop treatment helped me with the pain in order to help me get off of all my pain medications. In addition, my stress level is lowered because of the natural oils working in area's that need it the most.

I recommend having a raindrop treatment for all people who want to change your life and how you feel. I am going to keep continuing to have more raindrop treatments. I have had cancer for over a year now and have been off of the radiation and chemotherapy treatments for approximately eight months. I believe the Raindrop Treatment has helped me more than anything to deal with the struggle to beat my cancer.
