

Testimonial for using Young Living Therapeutic Grade Essential Oils
From: Thomas of Lakewood California.

I've been suffering for the last 5 years with chronic lower back pain. I was really tired of feeling like an 80 year old man, as I was constantly in pain. When things were bad I'd have to crawl on my hands and knees to the bathroom. While going through another relapse 2 yrs ago my chiropractor sent me for an MRI. I discovered I had a herniated disk at L5. The bulge was at 7 mm, which I was told is bad. Shortly thereafter Jamie Brown introduced me to these fantastic oils. She suggested I use Panaway and Spruce to help the pain. Within a minute or two the pain actually went away. Needless to say I was shocked at how quickly this worked for me. I was used to eating two 800 mgs. of Ibuprofen every few hours. That was a good day! When things were bad I was on codeine and Flexeril.

I followed up with a "Raindrop" session with Jamie. The technique used felt wonderful and I was so very relaxed. I was pain free! I actually grew an inch. Yes that's right! I was measured before the session and immediately afterward. I was so impressed with the results that I had several more sessions over the weeks to come. There are 7 different essential oils utilized in the process, which helped remove the toxins from my spine.

Today I live pain free! I'm not afraid to bend over and lift heavy objects. I honestly believe the herniated disk has been healed using these wonderful Essential Oils. I now use a large variety of Young Living Essential Oils and supplements in my daily life. No matter what issues you may be facing in your life today, I truly believe you'll benefit greatly by using these products. I will admit that when I was first introduced to the product I was skeptical. I thought I had seen it all, as I tried so many different manufactures vitamin and mineral supplements. They all tout how wonderful their product is. I felt like; "put a fork in me, I'm done"! However, I can honestly say these really work! I'm no longer a slave to the pharmaceutical industry. I no longer fear that I'm damaging some other organ in my body with their product, while just masking the symptom. These plants were put on this earth to heal us. I learned I don't need the synthesized garbage the corporate drug pushers were feeding me. You can experience the freedom too. I encourage each and every one of you to take your power back and heal yourself.
